

Thejesh Reddy Kanchi

Junior Java Developer | Fresher

📞 7013960572 | ✉ kanchithejeshreddy@gmail.com | 📍 Chittoor, AP 517001 | 🔗 [linkedin.com/in/kanchi-thejesh-reddy](https://www.linkedin.com/in/kanchi-thejesh-reddy)

PROFESSIONAL SUMMARY

Motivated and detail-oriented Computer Science final-year student with practical internship experience in Core Java development, OOP principles, and Agile software delivery. Proficient in Java, Python, SQL, and foundational web technologies (HTML, CSS, JavaScript). Adept at writing clean, testable code, debugging applications, and collaborating effectively in team environments. Passionate about building robust software solutions and continuously learning new technologies.

TECHNICAL SKILLS

Languages	Java (Core), Python, SQL
Web	HTML5, CSS3, JavaScript (Fundamentals)
Concepts	OOP, Data Structures, RESTful APIs, Web Application Architecture, SDLC
Databases	MySQL (basic), SQL query writing, Java-DB integration
Tools	Git, GitHub, Eclipse, IntelliJ IDEA
Testing	Manual Testing, Unit Testing (basic), Bug Tracking
Methodologies	Agile (Scrum), Daily Stand-ups, Code Reviews
Soft Skills	Problem-solving, Analytical thinking, Team collaboration, Communication

EXPERIENCE

Core Java Intern · Skill Intern · Bengaluru, Karnataka May 2025 – July 2025

- Designed and developed Java applications using Core Java concepts including OOP, collections framework, and exception handling, producing clean and maintainable code.
- Wrote and tested modular Java programs to support internal tools and small-scale modules, following consistent coding standards and best practices.
- Integrated SQL databases with Java back-end logic — performed CRUD operations and gained exposure to data persistence patterns.
- Participated in Agile sprint cycles with daily stand-up meetings, contributing to requirement discussions and tracking progress through the full SDLC.
- Used Git for version control — managed branches, commits, and pull requests within a collaborative development team.
- Conducted basic manual testing and bug tracking to validate application behaviour before delivery.

ACADEMIC PROJECTS

Student Management System | Java, SQL, OOP

- Built a console-based application to manage student records (add, update, delete, search) using Core Java and MySQL, applying OOP design patterns and JDBC for database connectivity.

- Implemented exception handling and input validation to ensure robust, error-tolerant operation.

Personal Portfolio Website | *HTML, CSS, JavaScript*

- Designed and developed a responsive personal portfolio website using HTML5, CSS3, and vanilla JavaScript to showcase academic projects and technical skills.
- Focused on clean layout, cross-browser compatibility, and mobile responsiveness.

EDUCATION

Bachelor of Technology – Computer Science

Expected May 2026

Sreenivasa Institute of Technology & Management Studies, Chittoor, AP

CERTIFICATIONS

Data Visualization Using Tableau

2024

LANGUAGES & INTERESTS

Languages: English (Professional) · Telugu (Native) · Tamil (Limited)

Interests: Emerging technologies, AI advancements, cloud computing, open-source tools — regularly explored through tech platforms and applied to academic projects.
